Automatic Mojo means good time rock, the fun, bouncy music that everyone loves. We're seasoned, we're soulful and we're serious about having fun. Our core trio - an architect, an insurance salesman and an ex-auto worker - have spent years perfecting their sound in recording studios, on the road, in garages and at festivals. "Our sound is the sound of American music: growling guitars, thumping bass, hot and heavy drums and pitch-perfect harmonies. Sophisticated High Energy Good Time Stuff!

**Forget the Colonel's Secret Recipe.....**

***We got somthin' with real taste!***

Well, start with a pinch of Clapton, a touch of Santana, a dash of Sheryl Crow, a heaping dose of the Beatles and mix well, Add Traffic, The Temptations, Stevie Ray Vaughn and Ray Charles. Fold in John Mayer, Wild Cherry, The Staple Singers and Jimmy Buffett. When done just right, everything comes out... automatically. Garnish with British Invasion, Motown, girl-group pop and a little bit of roaring funk. **Mmmm Mmmm Good, Perfect MOJO every time!**

**What the Wildlife Says About Automatic Mojo:**

"They sure beat the stuffings out of any of those other bands out there. They got it all - funk, pop, rock, soul. Really, I love it when they come to the sock hop."

"Just like me, they're polished, and they shine through every situation. They wrote a song about me - maybe someone will write a song about them one of these days. They're that good."

**- Brass Monkey, "The Funky Monkey"**

"Man, they give me the blues. Then they make me put on my boogie shoes. I love their deep, innate grooves."

**- Blue Monkey**

"As the spokesmonkey for Automatic Mojo, I can tell you these guys are IT. Doug's guitar doesn't quit, and Jef's bass and Bill's drums put the **mo** back in mojo."
